Number 1, March 1985

Predicting release of advance reproduction of mixed conifer species in California following overstory removal ..... *John A. Helms, Richard B. Standiford* 3

Estimating wildland fire rate of spread in a spatially nonuniform environment ..... *Francis M. Fujioka* 21

Germination and seedling growth of northern red oak: effects of stratification and pericarp removal ..... *G. M. Hopper, D. Wm. Smith, D. J. Parrish* 31

Predictive equations for local spread of oak wilt in southern Wisconsin ..... *Eric S. Menges, J. E. Kuntz* 43

Application of pattern recognition to volume estimation in forest inventory ..... *Jack-Gérard Postaire, Omar M'Hirit* 53

The aggregation of age classes in timber resources scheduling models: its effects and bias ..... *Richard L. Barber* 73

A tarif system for loblolly pine ..... *Graham H. Brister, Dwight K. Lauer* 95

The effect of tephra deposition and planting treatment on soil oxygen levels and water relations of newly planted seedlings ..... *Paul J. Schulte, Robert O. Teskey, Thomas M. Hinckley, Robert G. Stevens, Debra A. Leslie* 109

Causes of delayed nitrate production in two Indiana forests ..... *Peter M. Vitousek, Pamela A. Matson* 122

Interspecies variation in terpenoid emissions from Engelmann and Sitka spruce seedlings ..... *Rosemary C. Evans, David T. Tingey, Marcia L. Gumpertz* 132

An application of a production function for juvenile hybrid poplar to intensive forest management ..... *J. K. Rawat, J. C. Nautiyal* 143

A timber market model for analyzing roundwood product interdependencies ..... *Brian J. Greber, Harold W. Wisdom* 164

A compatible model relating slash pine plantation survival to density, age, site index, and type and intensity of thinning ..... *R. L. Bailey, B. E. Borders, K. D. Ware, E. P. Jones, Jr.* 180

Early growth patterns of red alder and black cottonwood in mixed species plantations ..... *S. R. Pezeshki, Chadwick D. Oliver* 190

Tissue culture of propagation of mature trees of *Prunus serotina* Ehrh. I. Establishment, multiplication, and rooting *in vitro* ..... *David M. Tricoli, Charles A. Maynard, Allan P. Drew* 201

Yield-based measures of northern hardwood site quality and their correlation with soil-site factors ..... *Daniel L. Schmoldt, George L. Martin, James G. Bockheim* 209

A bivariate model for growth and yield prediction ..... *W. L. Hafley, M. A. Buford* 237

Improved estimates of site index curves using a varying-parameter model ..... *Greg S. Biging* 248

An evaluation of percentile and maximum likelihood estimators of Weibull parameters ..... *Stanley J. Zarnoch, Tommy R. Dell* 260

Notes

Comparison of methods for determining fraction of land area in treefall gaps ..... *James Runkle* 15

Comparative white-pine weevil attack susceptibility and cortical monoterpene composition of western and eastern white pines ..... *Ronald C. Wilkinson* 39

Confidence bounds for the sum of volumes predicted by weighted regressions ..... *Bryce E. Schlaegel* 65

Controlled-pollination methodologies in green ash ..... *C. Busby Talbert, C. Taylor, and R. C. Kellison* 82

Prediction of survival in slash pine plantations infected with fusiform rust ..... *Owen J. Devine and Jerome L. Clutter* 88

Uneven-aged stand management and the value of forest land ..... *B. R. Michie* 116

The effects of spring, summer, and fall burning on Gambel oak in a southwestern ponderosa pine stand ..... *M. G. Harrington* 156

Lateral-root development and spread of *Pisolithus tinctorius* ectomycorrhizae on bare-root and container-grown loblolly pine seedlings after planting ..... *John L. Ruehle* 220

Effects of rhododendron (*Rhododendron maximum* L.) on regeneration of southern Appalachian hardwoods ..... *Donald L. Phillips and William H. Murdy* 226

Symposium: May 8–9, 1985. The effects of air pollutants on forest ecosystems 2
ERRATA 268

Number 2, June 1985

Insects affecting seed production of jack pine, and life tables of conelet and cone mortality in Wisconsin *Aunu Rauf, Daniel M. Benjamin, Robert A. Cecich* 271
Scenic impacts of eastern hardwood management ..... *M. C. Vodak, P. L. Roberts, J. D. Wellman, G. J. Buhyoff* 289
Estimating optimal thinning and rotation for mixed-species timber stands using a random search algorithm ..... *Steven H. Bullard, Hanif D. Sherali, W. David Klemperer* 303
A dynamic programming algorithm for optimization of lodgepole pine management ..... *Robert G. Haight, J. Douglas Brodie, Walter G. Dahms* 321
Probability distributions as models for mortality ..... *M. A. Buford, W. L. Hafley* 331
Public policy and long-term timber supply in the South ..... *David J. Brooks* 342
Effects of defoliation in the developing leaf zone on young *Populus* × *euramericana* plants. II. Distribution of ^{14}C-photosynthate after defoliation ..... *John H. Bassman, Donald I. Dickmann* 358
Distribution of aboveground biomass in three pine species planted on a devastated site amended with sewage sludge or inorganic fertilizer ..... *W. Henry McNab, Charles R. Berry* 373
S_B distribution-based models for individual tree merchantable volume-total volume ratios ..... *James D. Newberry, Thomas E. Burk* 389
Volume offered and wood prices: a causality test for national forests ..... *Joseph Buongiorno, Sun Il Bark, Lance Brannman* 405
Nondestructive indices related to aboveground biomass of young loblolly and sand pines on ectomycorrhizal and fertilizer plots ..... *G. E. Hatchell, C. R. Berry, H. D. Muse* 419
Genetic structure of a *Pinus sylvestris* L. seed-tree stand and naturally regenerated understory ..... *R. Yazdani, O. Muona, D. Rudin, A. E. Szmidt* 430
Boundary-line analysis and models of leaf conductance for four oak-hickory forest species ..... *Jim L. Chambers, Thomas M. Hinckley, Gene S. Cox, C. L. Metcalf, R. G. Aslin* 437
Optimizing the sequence of diameter distributions and selection harvests for uneven-aged stand management ..... *Robert G. Haight, J. Douglas Brodie, Darius M. Adams* 451
Litterfall, decomposition, and nitrogen and phosphorus dynamics in a chronosequence of slash pine (*Pinus elliottii*) plantations ..... *H. L. Gholz, C. S. Perry, W. P. Cropper, Jr., L. C. Hendry* 463
Late-season fertilization, mineral nutrient reserves, and retranslocation in planted Douglas-fir (*Pseudotsuga menziesii* (Mirb.) Franco) seedlings ..... *R. van den Driessche* 485
Growth loss and mortality in laminated root rot infection centers in second-growth Douglas-fir on Vancouver Island ..... *W. J. Bloomberg, G. Reynolds* 497
Leaf area and biomass in mixed and pure plantations of sycamore and black locust in the Georgia Piedmont ..... *Donald I. Dickmann, Klaus Steinbeck, Thomas Skinner* 509

Experiential commodity definition in recreation travel cost models ..... *David A. King, John G. Hof* 519

Notes

Line intersect sampling of wooded strips ..... *Mark H. Hansen* 282

Viability and vigor of slash and shortleaf pine seeds after 50 years of storage ..... *James P. Barnett and J. A. Vozzo* 316

Adjusting estimates in large two-way tables in surveys ..... *H. G. Li and H. T. Schreuder* 366

Soil and litter nutrient responses to looper defoliation of curlleaf mountain mahogany ..... *Arthur R. Tiedemann and Malcolm M. Furniss* 382

The determination of financial rotation ages for coppicing tree species ..... *E. Lee Medema and Gary W. Lyon* 398

Short-term projection accuracy of five asymptotic height-age curves for loblolly pine ..... *John A. Brewer, Paul Y. Burns, and Quang V. Cao* 414

Inheritance of shoot coatings and their relation to resin midge attack on ponderosa pine ..... *John W. Duffield* 427

Incorporating crown ratio into taper equations for loblolly pine trees ..... *Harold E. Burkhart and Sally Burton Walton* 478

Announcement

Symposium, March 7–8, 1986, to assess the natural management of tropical moist forests for wood products 270

Number 3, September 1985

Identification of the origins of lodgepole pine seeds by X-ray energy spectrometric determination of mineral profiles ... *Yousry A. El-Kassaby, John A. McLean* 539

Photosynthesis, water relations, and drought adaptation in six woody species of oak-hickory forests in central Missouri ..... *Z. A. Bahari, S. G. Pallardy, W. C. Parker* 557

Spatial autocorrelation of individual tree characteristics in loblolly pine stands .. *David D. Reed, Harold E. Burkhart* 575

An econometric analysis of aggregate sawtimber and pulpwood supply in Sweden ..... *Runar Brännlund, Per-Olov Johansson, Karl Gustaf Löfgren* 595

Mixed, short-rotation culture of red alder and black cottonwood: growth, coppicing, nitrogen fixation, and allelopathy ..... *Paul Heilman, R. F. Stettler* 607

Root growth of black walnut trees related to soil temperature, soil water potential, and leaf water potential ..... *M. R. Kuhns, H. E. Garrett, R. O. Teskey, T. M. Hinckley* 617

Accelerating seedling growth through photoperiod extension for genetic testing: a case study with blue spruce (*Picea pungens*) ..... *Bruce C. Bongarten, James W. Hanover* 631

Needle decomposition and nutrient release in ponderosa pine ecosystems ..... *J. O. Klemmedson, C. E. Meier, R. E. Campbell* 647

Equipment replacement: a comparison of two methods ..... *Walter L. Mills, Jr., Robert A. Tufts* 661

Incidence and impact of fusiform rust vary with silviculture in slash pine plantations ..... *James D. Burton, Eugene Shoulders, Glenn A. Snow* 671

A product diffusion approach to modeling softwood lumber demand ..... *Henry Spelter* 685

A silvicultural-financial simulator for nonindustrial forest land in the Northeast ..... *P. A. Harou, R. J. Mack, J. C. Mawson* 706

Tests of the economic base model of growth for a timber dependent region ..... *Kent P. Connaughton, Paul E. Polzin, Con Schallau* 717

Predicting basal area growth in thinned slash pine plantations ..... *L. V. Pienaar, B. D. Shiver, G. E. Grider* 731

Photosynthesis and transpiration of loblolly pine seedlings as influenced by moisture-stress conditioning ..... *John R. Seiler, Jon D. Johnson* 742
Leaching of nitrogen, phosphorus, and total organic carbon from loblolly pine litter by simulated rainfall ..... *P. D. Duffy, J. D. Schreiber, L. L. McDowell* 750
Responses of cherrybark oak seedlings to short-term flooding ..... *S. R. Pezeshki, J. L. Chambers* 760
A risk analysis approach for using discriminant functions to manage logging-related landslides on granitic terrain ..... *Raymond M. Price, Norman H. Pillsbury, Kurt W. Schmidt* 772
Seasonal changes in nutrient concentration and content of aspen suckers in Minnesota ..... *David H. Alban* 785

Notes

Effects of nitrogen fertilization and low thinning on snow damage in jack pine ..... *Frank Schnekenburger, Kenneth M. Brown, and John E. Barker* 552
Fertility of Douglas-fir pollen after one year of storage in liquid nitrogen ..... *Donald L. Copes* 569
Optimum plot size and BAF ..... *Charles W. Gambill, Harry V. Wiant, Jr., and David O. Yandle* 587
Validation of a butt log volume estimator for Douglas-fir ..... *Timothy A. Max, James M. Cahill, and Thomas A. Snellgrove* 643
Rate of aerobic nitrogen transformations in six acid climax forest soils and the effect of phosphorus and $CaCo_3$ ..... *K. L. Sahrawat, D. R. Keeney, and Susan S. Adams* 680
Photosynthetic life span of attached poplar leaves under favorable controlled environmental conditions ..... *Neil D. Nelson* 700
Recurrent shoot flushes in scarlet oak stump sprouts ..... *S. W. Cobb, A. E. Miller, and R. Zahner* 725
Clonal variation in susceptibility to coneworms (*Dioryctria* spp.) in young loblolly pine seed orchards ..... *G. R. Askew, R. L. Hedden, and G. L. DeBarr* 794
